

DELUXE FLUID MODULE

A-OK's Deluxe Fluid Module is a totally preplumbed/prewired, independently operated delivery system designed to deliver presoak, foamy brush, foamy tire/motor cleaner, wash & wax solutions to your customer in the bay. The unique design of the Fluid Module allows you to use it in conjunction with A-OK's Deluxe Compac Pumping System or your existing pumping plant. All this is accomplished using minimal equipment room floor space.

- All Stainless Steel water & chemical solution tanks
- Air operated product pumps
- Automatic chemical proportioners
- Stainless Steel adjustable chemical solenoid valves
- All prewired & preplumbed
- Glycerine filled pressure ETL gauges
- All electrical components ETL/U.L. approved, housed in a NEMA enclosure

Shown with optional Stainless Steel frame
